Weather summary of the past three days

Weather forecast valid from 23rd September, 2015 To 27th September, 2015.

There are chances of moderate to light rainfall during the next 5 days. The maximum and minimum temperatures for the next 5 days may range for 27-29°C and 18-19°C. Maximum relative humidity is expected in the range of 100% and minimum may from 59-74%. Wind direction would be southeasterly to easterly with the wind speed of 2-3 km per hour. Mainly cloudy sky will prevail during the next five days.

Weekly cumulative rainfall: 38.0 mm

NDVI for Mizoram

NDVI for Mizoram is less than normal NDVI. Value shown that NDVI is zero. So, it represents "Bare Soil".

Weather summary of the past three days

Weather forecast valid from 23rd September, 2015 To 27th September, 2015.

There are chances of heavy to moderate rainfall during the next 5 days. The maximum and minimum temperatures for the next 5 days may range for 28-30°C and 20°C. Maximum relative humidity is expected in the range of 97-100% and minimum may from 63-75%. Wind direction would be southeasterly with the wind speed of 3-5 km per hour. Mainly cloudy sky will prevail during the next five days.

Weekly cumulative rainfall: 96.0 mm

NDVI for Mizoram

NDVI for Mizoram is less than normal NDVI. Value shown that NDVI is zero. So, it represents "Bare Soil".
