Weather summary of the past three days	Weather forecast valid from 25 th May, 2016 To 29 th April, 2016.
The temperature range for maximum and minimum were 23.1-25.8°C and 16.2-17.3°C respectively. Mainly cloudy sky was observed. Wind direction is southeasterly to easterly. Maximum RH observed 98-100% & minimum of 48-68%. Rainfall recorded for the past three days is 054.50mm . (Source-mosdac.gov.in)	There are chances of moderate to light rainfall during the next 5 days. The maximum and minimum temperatures for the next 5 days may range for 31-33°C and 20-22°C. Maximum relative humidity is expected in the range of 97-98-99% and minimum may from 48-81%. Wind direction would be southeasterly with the wind speed of 2-4 km per hour. Mainly cloudy sky will prevail during the next five days. Weekly cumulative rainfall: 40.0 mm

NDVI for Mizoram

NDVI of soil moisture for Mizoram is moderate wet condition.
