**AGRICULTURE METEOROLOGICAL FIELD UNIT (AMFU)-KOLASIB**  
**(Collaborating Department, KVK)**

A special bulletin of animal husbandry issuing from Agro-Met Field Unit (AMFU), ICAR, Mizoram Centre with Directorate of Agriculture, Research and Education (R&E) for decreasing minimum temperature in night.

**SPECIAL BULLETIN FOR ANIMAL HUSBANDRY IN MIZORAM**

- Protect poultry houses from extreme cold wind by covering with polythene sheets/gunny bag on the sheds.
- Close all ventilation of the house at night to keep it warm
- Provide dry bedding materials like saw dust, straw and gunny bag to livestock/poultry.
- Provide sufficient clean drinking water
- Provide vitamin B complex @ 7ml/litre in drinking water daily in broiler for healthy growth.
- Diseased and dead birds should be immediately removed/disposed off properly.
- Regularly inspect the droppings of the poultry birds for any diseases symptom
- Farmers should go for strict biosecurity measures to prevent the entrance of the disease and supplementation with the electrolytes (ORS) to avoid stress.
