2020-02-16	0	29	13	65	29	5.5	109	0

### Weather Summary/Alert:

Probability of no rainfall the coming week
Etia lakha somoi dhe pani nigheribo

### General Advisory:

Farmers are advised to install pheromone traps @ 3-4 traps per acre for monitoring of the pest population for diamond back moth in cole crop, pod borer in pea and fruit borer in tomato
Diamond black moth cole crop dhe, pod borer matar dhe aru fruit borer tomato dhe komti kuriboleh, pheromone traps ekta acre tae 3-4 rakhibi

### SMS Advisory:

Keeping increasing temperature in view, farmers are advised for light irrigation in standing crops and vegetables as per requirement
Etia somoi, hawa gorom aru pani nighera somoi dhe, apuni khan bakan dhe pani dibo lakhe

### Crop Specific Advisory:

Crop(Varieties)	Crop Specific Advisory
RICE	STORAGE : Rice should be stored in paddy form rather than milled rice as the husk provides some protection against insects
	STORAGE : Dhan tho sob nukhundighenah, kiman lageh eman hi khundibi. Sob tho khundighenah rakhithakileh puka bi lagijabo
GINGER	LAND PREPARATION : Start preparation of land
	LAND PREPARATION : Mathi bonaboleh suru kuribi

Crop(Varieties)	Crop Specific Advisory
OKRA/ LADIES' FINGER	LAND PREPARATION : Start land preparation. Well decomposed FYM or organic manure or poultry manure can be incorporated at the time of land preparation
	LAND PREPARATION : Mathi bonaboleh suru kuribi. Mathi bona somoi tae bhal parah sukhijah FYM, organic manure or murgi manure milabo pariboh

### Horticulture Specific Advisory:

Horticulture (Varieties)	Horticulture Specific Advisory
VEGETABLE PEA	GERMINATING STAGE: In the present weather as there will be no rain, light irrigation should be provided
	GERMINATING STAGE: Etia lakha somoi dhe pani nigheribo dho, pani somoi dhe alibi
BRINJAL	NURSERY: Start nursery preparation. To avoid mortality of seedlings due to damping off, drenching of the beds with Bavistin (15-20 g/10 litres of water) is effective.
	NURSERY: Nursery bonaboleh suru kuribi. Bijon guti puchighenah murinajabo karoneh Bavistin (15-20 g/10 litres pani)
LEMON	Timely remove the dry twigs and dry and diseased leaves
	Somoi tae sukha branch, sukha aru bimar pata khan hatabi

### Livestock Specific Advisory:

Livestock(Varieties)	Livestock Specific Advisory
COW	Adequate measures should be taken to protect the animals from the wet weather, as well as the drop in temperature when the skies clear after the rain.
	Din biyah para janwar khan bachaighenah rakhibi
PIG	Monitored for signs of discomfort (extensive shivering, weakness, lethargy, etc.). Special attention should be paid to very young and old animals because they may be less able to tolerate temperature extremes
	Gahori khan komjori aru kapithaka sabo lageh. Bacha aru omor bishi gahori khan bhal parah sabi. Thanda gorom bishi hua tho lobo napareh

### Fisheries Specific Advisory:

Fisheries(Varieties)	Fisheries Specific Advisory
COMMON FISH	If complete removal of water is not possible, remove the aquatic vegetation manually. Go for repeated netting to remove all small and unwanted fishes.
	Pani sob phekaboleh naparilehbi, jongol ghas khan sapha kuribi aru jal marighenah chutu aru nalagia mass khan sob hatabi

### Poultry Specific Advisory:

Poultry(Varieties)	Poultry Specific Advisory
FOWL	For prevention of diseases, some general measures should be followed. Provide ample quantity of clean drinking water, don't make sudden changes in feed, maintain good ventilation avoid overcrowding and dispose dead birds by burning or burial.
