

SERIES OF DEMONSTRATION PROGRAMME ON SRI BY KVK WEST SIANG

Basar 14th July, 2014 : As a part of the series of demonstration programme to be conducted on System of Rice Intensification, Shri A. Kirankumar Singh, i/c Programme Coordinator demonstrated the transplanting of paddy in SRI system in the field of Smt Gobom Basar of Gori-I Village at Sire Rijo with the varieties RCM-7 and RCM-10. Shri Singh was impressed with the interest and enthusiasm of Smt Basar even though she is a working lady as CDPO, Tirbin who is a responsible government employee in the district. She has narrated the interest and enthusiasm created in her mind being the daughter of a farmer from Basar area. She is going to transplant Amlum, Amtum, CAU-R1 and RCM-10 varieties in conventional method to compare the production with SRI system of cultivation. She has suggested the other womenfolk also to adopt the SRI for getting higher production compared to their conventional method of cultivation.
