

## STATE COMPOSITE AGRO-MET ADVISORY BULLETIN FOR THE STATE OF SIKKIM PERIOD: 27<sup>TH</sup> NOVEMBER to 30<sup>TH</sup> NOVEMBER'2015

*IMD, GANGTOK* IN COLLABORATION WITH *ICAR, GANGTOK, FSAD AND HCCD, GANGTOK* 

#### ISSUED ON FRIDAY 27<sup>TH</sup> NOVEMBER'2015

#### Meteorological Sub-division of Sikkim

As per India Meteorological Department's classification, Sikkim is a part of Met Sub-Division of Sub Himalayan West Bengal & Sikkim (SHWB & SKM) and is divided into four (4) Districts:

- 1) North District with HQ at Mangan
- 2) East District with HQ at Gangtok
- 3) West District with HQ at Gyalsing
- 4) South District with HQ at Namchi

|            | Mangan (PTO) |           |           | North Sikkim Forecast           |                     |                     |                     |                     |                     |  |

# <u>Part II</u>

### AGRO-METEREOLOGICAL ADVISORIES

**General Advisories for all the crops/ livestock** 

- Preventive spray and soil drenching with copper oxychloride @2.5 g/l of water at 7-10 days intervals.
- Spraying of plant protection biopesticides on bright sunny day.
- Nursery should be raised for cole crops (cabbage, cauliflower, broccoli), raya saag etc.
- Mulching should be done through locally available biomass to conserve soil moisture for rabi crops.
- **Jalkund should be covered with thatch to prevent evaporation losses.**
- Vermicompost pits should be covered with gunny bags / paddy straw/ dry forest litter to regulate the temperature.
- Avoid feeding of damp and foul smelling feed to all livestock and poultry.
- De-worming with Fenbendazole @ 10 mg / kg body weight.
- Protect animals from cold by providing protective cover/ house and light.
