

KVK Anjaw Completely Covered MGMG Villages Under Soil Health Card Scheme

KVK Anjaw has successfully covered the MGMG village under the benefits of Soil Health Card distribution programme. In this context, 70 nos. of beneficiaries from both the adopted village Barfu and Supliang were benefitted by the KVK Anjaw. In this continuation, the KVK Anjaw has successfully collected 1721 samples from different villages of the districts and the samples were also submitted to the ICAR, Basar and ICAR, Barapani laboratory for macro and micro nutrients analysis. Hence, the zeal and enthusiasm of KVK team has assured that this district may completely cover and benefitted by the end of 2017. The farmers were also shown their positive response regarding the use and benefit of the Soil Health Card for their farming and land management.
