

## **TRAINING PROGRAMME ON NURSERY MANAGEMENT OF COLE CROPS CONDUCTED BY KVK ANJAW**

Popularizing the cultivation of cole crops, a one day training programme on “Establishment of Nursery and Nursery Management on Cole Crops” was conducted at Mera Gaon Mera Gaurav (MGMG) village Supliang, Anjaw district by ICAR KVK, Anjaw on 06<sup>th</sup> September 2017. Altogether, 30 farmers and farm women attended the training programme. Mr. Senpon Ngomle, Subject Matter Specialist (Plant Protection), welcomed the participants and briefed the gathering about the importance of organizing this training.

Ms Rebecca Eko, Subject Matter Specialist (Horticulture), coordinator of the training programme stressed on the establishment of nursery for cole crops. The farmers are not aware of nursery raising and still practice the broadcasting method of sowing. Hence, giving a clear picture of nursery raising and its management, she delivered a detailed power point presentation on the importance of nursery and its management, site selection, soil treatments, seed treatment, type of nursery bed preparations, different sowing methods and essential operations in nursery raising & its aftercare. Based on the saying that ‘Seeing is believing’, the farmers were also imparted a method demonstration on nursery preparation, its types, pre-sowing treatments, line sowing and its management.

In the end of the programme seeds and vermicompost bags were distributed to the farmers.
